

FIG. 1

FIG.

FIG. 2 is a schematic diagram of a network architecture. The diagram shows several interconnected networks and hosts:

- Host A (28)** is connected to the **FDDI Network (26)**.
- The **FDDI Network (26)** is connected to the **X.25 Network (30)**.
- The **FDDI Network (26)** is also connected to a central hub (34) which branches into a **UNIX Host (36)** and a **Novell LAN (38)**.
- The **X.25 Network (30)** is connected to **Host B (50)** and the **SNA Network (52)**.
- The **SNA Network (52)** is connected to a **TOKEN RING (54)**.
- A **TCP/IP Device (42)** is connected to the central hub (34) and the **SNA Network (52)**.
- The **Novell LAN (38)** is connected to a group of nodes (44, 46, 48, 56, 58, 60, 62).
